

*Neotrombicula microti*, larva (“chigger”), entire. Note: Larva in Hoyer’s for several years explaining poor slide quality (i.e., “bubble” artifacts).

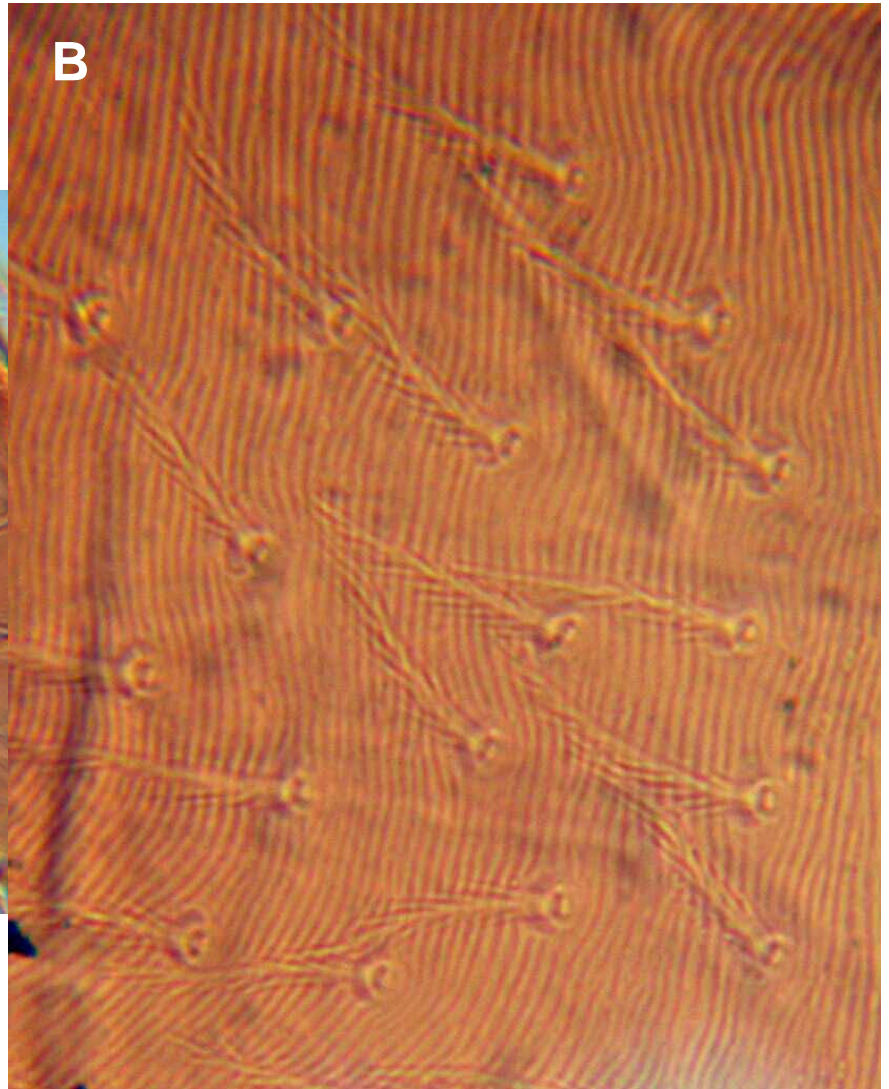

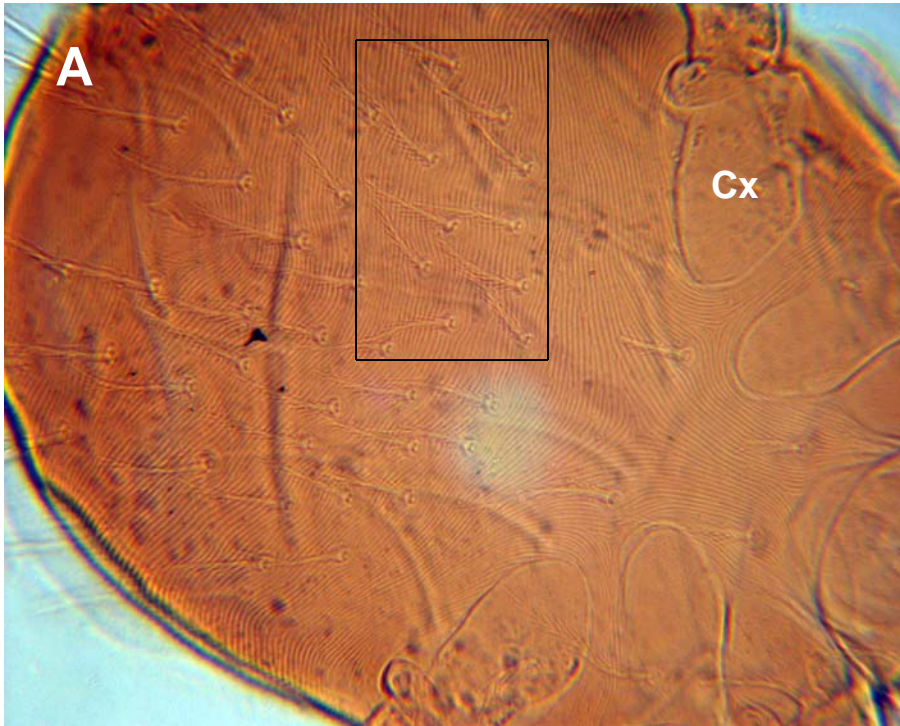

*N. microti*, larval mouth parts. Legend: c, chelicera; cx, coxa of first leg; p, palp.

*N. microti*, larva, dorsal abdomen.

*N. microti*, larva, dorsal abdomen. Box in A, enlarged in B. Note fine body striations and “hairs” on setae. Cx, coxa of third leg.

*N. microti*, larva,
