

The [Society of Physics Students](#) with the help of [Dr. Sean P. McBride](#) had a great time with new students to Marshall with a dodgeball game on August 16, 2018! The event took place on INTO field (labeled East Hall Lawn on campus maps) as part of the [Week of Welcome](#). Students were invited to arrive whenever, play dodgeball, take advantage of the free lemonade and soda, then leave whenever. All were welcomed, regardless of class standing or major, and the winner of each game received a free Marshall physics t-shirt! Thank you for Nichole Jervis, Administrative Secretary, for all her help during the event!
