

The [Physics Department](#) enjoyed participating in the Huntington College Fair October 1st 2018 and the Kanawha County College Fair at the Charleston Civic Center on October 2nd. This year [Dr. Sean P McBride](#) and Dr. Sachiko McBride brought an apparatus that demonstrated pressure and one that demonstrated Faraday's Law of Induction and its role in electromagnetic breaking. Both stole the show at each event. Over the course of 3 short hours, well over 100 students were engaged and a significant information about the department was shared with the upcoming generation of college bound students.
