

On Saturday May 19th, from 10 am - 2 pm, fun was had by all at STEM Day in South Point Ohio at the Tri-State STEM and M Academy. Marshall University [Physics Department](#) Assistant Professor, [Dr. Sean P. McBride](#), graduate student working with Dr. McBride, Ryan Vincent, and senior Applied Physics major and [Society of Physics Students](#) President, Emily Sutherland were all on hand to help students participate in classic physics demos and build mini electric motors that they got to take home with them.
